Letter from our president

Dear Supporters,

As we reflect on this past year, I am filled with immense gratitude for the generosity and dedication that have made our work possible. Llah Charity has remained steadfast in our mission to support vulnerable communities, responding to urgent crises and laying the foundation for long-term change. During times of conflict, we provided essential aid to those in Sudan and Gaza, ensuring that families had access to food, water, and medical supplies when they needed it most. Locally, we continued to uplift our community through book and clothing donations, school support, and volunteer initiatives that strengthen the bonds of kindness and solidarity.

Looking ahead, we are committed to expanding our efforts even further. In the coming year, we plan to launch and develop projects in Burkina Faso, Egypt, and Sudan, focusing on sustainable resources, education, and community rebuilding. Our goal is not just to provide aid but to create lasting impact—empowering individuals with the tools they need to build a brighter future.

None of this would be possible without you—our supporters, donors, and volunteers. Your unwavering commitment fuels our work and brings hope to those who need it most. Together, we will continue to extend our reach, uplift communities, and stand by our belief that kindness has the power to transform lives. Thank you for being part of this journey.

With gratitude,

Mohamed Eldreny

President, Llah Charity

OUR MISSION & FOCUS IN BURKINA FASO

Our mission in Burkina Faso focuses on supporting the capital, Ouagadougou, specifically the village of Bissighin, a majority Muslim community. We began by constructing a water well to eliminate the 10-kilometer trek for water, followed by providing essential food assistance. To address the lack of educational access due to financial constraints, we established a Madrasa/School, offering over 100 students the opportunity to learn reading and writing through the Quran. Llah Charity now funds food for students and those in need, supplies books and educational materials, and has installed solar panels for nighttime learning. Additionally, we purchased land to build a Masjid and a new rest area for students, many of whom reside there to study.
